

## ITS DVR Specs

### DVR

- ✦ 500GB Hard drive
  - ✦ 2GB Ram
  - ✦ CD-RW drive
  - ✦ 16 Channel DVR
  - ✦ Records up to 8 channels of audio
  - ✦ Web-Based with Remote Access
  - ✦ Policy-based unlimited user
  - ✦ Compatible with mobile devices
  - ✦ Supports IP-based Cameras
  - ✦ Supports Remote Cameras
  - ✦ Ability to trigger events on all or a select few cameras when motion is triggered on a single camera.
  - ✦ Programmable multiple detection zones for each camera
  - ✦ Playback while monitoring
  - ✦ Individual camera configuration, naming, video quality
  - ✦ Record at a max of 32fps
  - ✦ Ability to export events via browser
  - ✦ Live customizable Raw Data Feed
  - ✦ Ability to page on alarms
- Purge when full filter to prevent full hard drive

### Camera Modes Supported:

- ✦ None – The monitor is currently disabled and no streams can be viewed or events generated.
- ✦ Monitor – The monitor will only stream feeds but no image analysis is done and so no alarms or events will be generated.
- ✦ Modect – or Motion Detection. All captured images will be analyzed and events generated where motion is detected.
- ✦ Record – In this case continuous events of a fixed length are generated regardless of motion which is analogous to a convention time-lapse video recorder. No motion detection takes place in this mode.
- ✦ Mocord – This is a hybrid of Modect and Record and results in both fixed length events being recorded and also any motion being highlighted within those events.
- ✦ Nodect – or No Detection. This is a special mode designed to be used with external triggers. In Nodect no motion detection takes place but events are recorded if external triggers require it.
